---

### SUMMARY

---

I am a CS student with hands on experience in React and Nodejs . I am passionate about building better web application and always open to learning new and better ways of doing things to further enhance my skills.

### SKILLS

---

- **Frontend Technologies:** React, Nextjs, TypeScript, Tailwind CSS
- **State Management:** Redux Toolkit, Context API, Zustand
- **Backend Technologies:** Node.js(Express), Nestjs
- **Databases & ORMs:** PostgreSQL, MongoDB, Drizzle ORM, Prisma ORM
- **Testing:** Jest
- **API Development & Testing:** Postman
- **DevOps & Tools:** Git/GitHub, Docker
- **Data Fetching and Caching:** Tanstack Query

### PROJECTS

---

- **Pizza-App**
  - A simple pizza selecting app which has beautiful Ui and add to cart functionality. It uses Zustand to manage the complex state management and do all the calculations.  
[pizza-ui-amber.vercel.app](http://pizza-ui-amber.vercel.app)
- **Medrepo**
  - A fullstack web app built using Nextjs to keep Medical records of Patients. It connects patients and doctors of different hospitals to make sharing of medical records efficient and easy.  
[medrepo.vercel.app](http://medrepo.vercel.app)
- **Quiz Api**
  - A robust API that allows users to create quizzes, participate in quizzes and view their results. It includes admin functionality with authentication and authorization.  
[github.com/nischal1101/quizapi](https://github.com/nischal1101/quizapi)
- **Tutor App Api**
  - A Nestjs-based backend application with authentication, user management and tutor-student interactions. It provides endpoints for user authentication, profile management, tutor article creation and student article access.
